Informational

Alert Loudoun

Alert Loudoun is the notification system the county uses to send citizens emergency information, news releases, traffic information, weather alerts, and more.

The system will send you **information you need wherever you are**. For example, subscribers may register to receive weather alerts that affect not only their home address, but also their work location, their children's day care provider, their children's school, or their parents' home.

The Alert Loudoun system also gives subscribers the ability to customize how they receive information – by text, email, cellphone and/or mobile app. The new system will first send a message to what you designate as your primary means of notification. If it doesn't reach you that way, it will try another method.
